**COLORING OF GRAIN IS NOT UNLAWFUL.**

Chicago Court Renders an Opinion of Much Importance to Elevator Operators.

Chicago, Aug. 9.—A decision was rendered by Judge Tukey in the Circuit Court here to-day which is of interest to grain dealers and elevator men all over the country. The decision practically declares the statute governing the coloring of grain unconstitutional, and says that a man has a right to do anything with his own property so long as he does not menace the welfare of the community or impair the public health. The opinion was delivered in the case of D. H. Stur, Frank Nott and one Brussell, who are charged with coloring barley for the purpose of making it appear of a better grade. The prosecution showed that the defendants fumigated barley in their elevator at South Chicago, and that as a result of the process the grain was made to appear of a better quality than it really was. There are said to be several elevator companies that have kilns to fumigate grain. In nearly every State there is a law against this practice, and the decision of Judge Tukey may have a widespread effect.

**NO LAND OPERINGS**  
**IN PROSPECT.**  
Department Will Not Heed Requests From Boomers Unless Directed by Congress.

**ONLY THREE RESERVES REMAIN**  
Chances for Their Immediate Settlement Are Not Encouraging—Homesteaders Must File in Person.

**REPUBLIC SPECIAL.**  
Washington, Aug. 9.—The attention of Interior Department officials was called to-day to the appeal of boomers in Oklahoma for the opening of additional reservations. The department states that there is no probability of more land being thrown open to homestead settlement in that Territory for a long time to come. There are three reserves in Oklahoma not yet opened—the Wichita forest reserve, the Indian Pasture reserve and the Fort Sill reservation. The pasture reserve belongs to the Indians. It was given them in part payment for their lands in the Kiowa and Comanche country. It cannot, therefore, be opened to homestead settlement. The forest reserve was declared open in the discretion of the President, but as the land was set apart because of its adaptability to forest culture and preservation, it will not be opened to homesteaders at this time. The Fort Sill reservation could be abandoned as a military post by the action of the President, but there is scarcely a possibility that he will make such an order unless directed by Congress.
